PROFESSIONAL EXPERIENCE

- AI Security Engineer — Sekera

08/2026 – 09/2026 · Casablanca, Morocco

 - Designed Vinci ADR, an open-source Agent Detection & Response framework acting as a security layer between AI agents and the systems they operate on.
 - Intercepts, analyzes, and blocks malicious agent behavior in real time — before it reaches the host.
 - Protects the full execution lifecycle: prompt input, tool calls, and generated output.
- Incident Response Intern — AXA GBS

02/2026 – 08/2026 · Rabat, Morocco

 - Incident response and security monitoring using Microsoft Sentinel, Azure Data Explorer (KQL), Cybereason EDR, and Google SecOps (SOAR).
 - Incident documentation and daily collaboration in English with security teams from other entities across the group worldwide.
- AI & SOC Automation Engineer — Sekera

04/2025 – 09/2025 · Casablanca, Morocco

 - Designed an AI agent (LangChain/LangGraph) capable of automatically investigating security alerts: SIEM alert analysis (OpenSearch, TheHive), phishing detection & email analysis, threat intelligence enrichment, and MITRE ATT&CK-aligned reporting.

EDUCATION

- École Mohammadia d'Ingénieurs (EMI) —
Networks & Cybersecurity Engineering

09/2023 – 06/2026 · Rabat, Morocco

 - Currently in final year of Networks and Telecom engineering.

CERTIFICATIONS

- CompTIA Security+ (SY0-701)
- Microsoft Security Operations Analyst Associate (SC-200)
- Cisco CyberOps Associate
- AWS Cloud Practitioner Essentials
- Google SecOps SOAR
- SOC Analyst Path (LetsDefend)

PERSONAL PROJECTS

- SOC Lab with n8n: integrated SOC environment combining Security Onion (NSM), Wazuh (SIEM/EDR), TheHive/Cortex, and n8n (SOAR orchestration) for automated threat detection, analysis, and response.
- Active Directory Lab: Domain Controller setup with a simulated attack (Kali Linux), analyzed and visualized using Splunk.

SKILLS

SIEM & Detection: Microsoft Sentinel · Azure Data Explorer · Splunk · Wazuh · OpenSearch · Elastic Stack · Sysmon
EDR & Endpoint: Cybereason EDR · Microsoft Defender XDR · LimaCharlie
SOAR & Incident Response: n8n · Tines · Google SecOps SOAR · ServiceNow SIR · TheHive + Cortex
Threat Intelligence & Analysis: MITRE ATT&CK · VirusTotal · AbuseIPDB · Shodan · AnyRun
Network & Infrastructure: Wireshark · Active Directory · Microsoft Entra ID · Tenable Nessus · FortiGate
Scripting & AI: Python · KQL · Bash · Ollama · SOC Agents (LLM) · Prompt Engineering

LANGUAGES

English · French · Arabic
